

ChemiCenter II™ DILUTION CONTROL SYSTEM

Maximum Performance on Demand

Contact Your Local Pro-Link Distributor:

What is Dilution Control?

Dilution control is a chemical management system consisting of equipment, closed loop chemical concentrates, and water.

Through the use of dilution equipment, chemical concentrates are accurately metered with water and dispensed as ready-to-use cleaning solutions.

Why use Dilution Control?

The top 3 benefits of dilution control are **safety**, **dilution accuracy**, and **waste reduction**.

Safety:

Through the use of closed loop systems, end users are never in direct contact with concentrated chemicals, reducing potential injuries.

Dilution accuracy:

Concentrated cleaning chemicals are designed to work best at their targeted dilution levels. Inaccurate dilutions can lead to ineffective cleaning and infectious disease outbreaks.

Accurate dilutions lead to optimum product performance.

Waste reduction:

More is not always better! Dilution control reduces cleaning costs by up to 30% by accurately mixing the dilution. Unlike the "pouring method", the correct amount of chemical is dispensed every time.

ChemiCenter II Program Materials

How To Use Wall Charts...

A bilingual wall chart detailing how to use and change out chemicals is included with each dispenser. The 11"x17" wall chart should be hung next to the dilution unit to help users understand how to use the equipment. Each wall chart is customized to the particular piece of equipment.

Labeling...

In support of the ChemiCenter II brand, all labels on cases, product and equipment have been designed with both number and color coding for accurate product selection and use. Additionally, concentrated product and corresponding RTU labeling provided in each case are bilingual.

Application Wall Charts...

To help users understand the best places to use each of the ChemiCenter II refill products, an 11"x17" application and usage guide wall chart is also included with each dispensing unit. The bilingual chart should be placed adjacent to each dispenser, helping to make product selection simple.

Mounting Templates...

The 4 button cabinet and single button dispenser units are pre-plumbed and do not require installers to connect a maze of water lines to different chemical compartments. Simply hang the units with the included mounting template, connect your main water supply and you are on your way!

Smarter than it already looks...

The ChemiCenter II system features a custom designed bottle with a focus on maximum performance.

The compact and rugged bottle's contours fit seamlessly into the ChemiCenter II Q, while the reinforced collar allows it to easily hang from the ChemiCenter II S. With an easy grip handle, the refill bottle is simple to grasp while transporting or holding when using the ChemiCenter II P.

New metering tip pre-installed in each bottle ensures consistent dilutions.

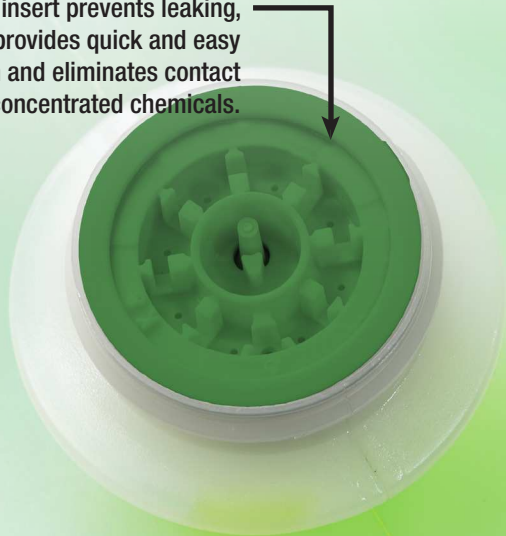

Reinforced collar supports bottle weight.

Number and color coded labeling for accurate product use.

Recyclable HDPE with easy grip handle.

Curved base helps to eliminate product waste.

Secure insert prevents leaking, provides quick and easy installation and eliminates contact with concentrated chemicals.

Indicates intended dispensing method.

Expected in-use dilution yield.

MULTI-PRODUCT DISPENSER

B14327

On/Off push button locks for filling up mop buckets and automatic scrubbers.

Provides bottle fill and bucket/auto scrubber fill options.

One handed bottle activation point mitigates foam.

- Space efficient design.
- Mounting bracket and template make for easy installations.
- Meets ASSE Standard #1055, Performance Requirements for Chemical Dispensing Systems.

Unit Dimensions:

Width: 13.1"

Height: 29.3"

Depth: 8.1"

Q

4 BUTTON CABINET

B14318

On/Off push button locks for filling up mop buckets and automatic scrubbers.

Easy grip handle on bottle.

Chemical view window for monitoring product usage.

Single knob for intuitive product selection.

Fresh water rinse.

Single key locks both cabinet doors.

One handed bottle activation point mitigates foam.

Secure insert with metering tip in bottle prevents leaking.

Provides bottle fill and bucket fill option for all four products.

Meets ASSE Standard #1055, Performance Requirements for Chemical Dispensing Systems.

Pre-plumbed dispenser makes for fast installation.

Unit Dimensions:

Width: 20"

Height: 25"

Depth: 8"

Available Accessories:
Faucet Y Adapter/Two-way Splitter

A line of products that flows just as well as the dispensing units.

	Product	Dispenser Use	Gallon Yield/ Bottle	RTU pH Levels	Features
1	Glass Cleaner B14300		41	8.5 - 9.0	Non-Ammoniated Glass Cleaner. Penetrates dust, grease, soil and smoke on all windows and other glass surfaces. Can be used on all glass surfaces indoors or outdoors. Safe for use on Plexiglas.
2	Glass & Surface Cleaner B14301		41	9.0 - 9.5	EcoLogo certified formula cleans and shines glass. Can be used as a light-duty cleaner on mirrors, sinks, countertops, stainless steel, and all other surfaces not harmed by water.
3	Neutral Cleaner B14302		161	7.5 - 7.0	Optically Enhanced Neutral Floor Cleaner. Designed for daily use. Ideal in automatic scrubbers. Enhances the beauty of the floor when it dries. Dissolves all ice melt and hard water films without soap haze.
5	Non Acid Bathroom Cleaner B14303		41	8.0 - 8.5	Non-Acid Restroom Cleaner. Cleans, disinfects, and deodorizes in one step. Hospital grade. EPA #10324-154-62512
6	Bathroom & Bowl Cleaner B14304		13	5.0 - 5.5	EcoLogo certified formula cleans away soap scum, mold and mildew stains, hard water deposits, rust stains, body oils, fats and dirt. Effectively removes difficult stains from ceramic tile floors and grouting.
7	Enzyme Cleaner & Deodorizer B14305		41	9.0 - 10.0	Enzyme Enriched Floor Cleaner & Deodorizer. Grease digester with a pleasant potpourri scent. Provides bleaching action that brightens surfaces. Biological action continues to work between cleanings.
8	Floral Odor Neutralizer B14306		21	7	Eliminates smoke and malodors by chemically neutralizing them permanently. Leaves a pleasant fragrance. Safe to spray on most surfaces not harmed by water. Will not stain.
9	Neutral All Purpose Cleaner B14307		161	7.0 - 7.5	EcoLogo certified formula for everyday floor cleaning. Ideal for use in mop and bucket cleaning or automatic floor scrubbers. Neutral pH. No rinsing required. May be used as a light duty spray and wipe cleaner.
10	General Purpose Cleaner B14308		41	8.5 - 9.0	EcoLogo certified formula performs all cleaning applications, including removal of heavy grease and soil. Moderate foam. Leaves a clean, film free surface. Ideal for scrub and recoats.
11	Oxygenated Cleaner B14309		81	5.0 - 5.5	EcoLogo certified all-purpose cleaner. Hydrogen peroxide oxidizes the soil and stains, destroys odors and provides color safe bleaching action. No rinse required.
12	BLITZ™ Heavy Duty Degreaser B14310		41	11.5 - 12.0	Heavy Duty Cleaner Degreaser. Low foaming product is formulated to quickly and effectively remove grease, oil, carbon, or any other industrial soil. Phosphate free formula.
13	Non-Solvent Cleaner and Degreaser B14311		41	10.0 - 10.5	EcoLogo certified formula lifts and emulsifies soils, fats, oils and greases without the use of solvents. Can be used to clean most hard surfaces such as walls, tile and grout and food processing and service areas.
14	BROADBAND™ Q256 B14312		161	7	Neutral Disinfectant & Detergent. Cleans, disinfects, and deodorizes in one step. Hospital grade. EPA # 10324-141-62512
15	High Speed Restorer B14313		41	7.0 - 7.5	Anti-Slip Gloss Restorer. Designed for high speed maintenance. Creates an anti-slip surface. Effectively cleans the floor and restores gloss. Can be mopped on or used through an automatic scrubber.
16	QUAT PRO™ B14314		41	6.5 - 7.0	Peroxide Disinfectant. Cleans, disinfects, and deodorizes in one step. Formulated with the power of Hydrogen Peroxide. Hospital grade disinfectant. EPA # 1839-224-62512
17	Highly Concentrated General Purpose Cleaner B14315		126	9.5 - 10.0	Film Free All Purpose Cleaner. Removes heavy grease and soil. Moderate foam. Ideal for scrub and recoats. Aggressively removes embedded soils and scuffs. Prepares the surface for re-coating.
18	1-2-20™ Ultra Concentrated Stripper B14316		13	11.0 - 11.5	Low Odor Ultra Concentrated Stripper. Rapidly penetrates and strips off floor finish with minimum labor. Ideal for use in areas where odors are a concern.
19	Lavender Fields Air Freshener B14317		21	7	Odor counteractant. Instantaneously controls offensive odors and replaces them with a pleasant lavender fragrance. Safe to spray on most surfaces not harmed by water. Will not stain.
20	OPTIMUM RESPONSE B14326		41	8.4 - 9.0	A zinc free, unique mix of acrylic polymers and surfactants that bonds to the surface of the floor, repairs scratches and scuffs, returns an excellent gloss to floors, and creates an anti-slip surface, all while reducing the negative impact conventional floor care products have on the environment.
